

National Headliners

The House of Care Toolkit provides a framework to bring together all relevant national guidance, published evidence, local studies and information for patients and carers:

- Includes information on what tools and resources are required to achieve person-centred coordinated care and how these can be effectively commissioned
- Contains resources that are arranged into the key components of the House with and details where to find additional information

Access the Toolkit [here](#)

Growing old together: Sharing new ways to support older people. It brings together experts from across the care system, who have a shared purpose of making care better for older people.

Many of the issues relating to good care are about effective integration of services centred on the patient. [Everyone Counts: Planning for Patients](#) describes a modern model of integrated care as being one where patients experience holistic care which is joined-up and is a single tailored package for each patient.

The South West is one of the 8 demonstrator sites where IPC is being rolled out across the region. For more information contact [Frances Tippett](#) or access the [SW SCN IPC Web page](#)

Save the date: for a South West EoL conference focusing on person-led care planning on **Wednesday 6th July** at [Taunton Racecourse](#)

For more information contact [Gina King](#)

Last Spaces available: For **Thursday 25th February**, [Taunton Racecourse](#), for an end of year event by HEE and the SW-SCN. Speakers include projects leads that have incorporated the use of Quality Improvement Methodology, and discussions from HEE and the SW-SCN as to what is next in terms of EoLC. To book contact [Liz Rees](#) by 12th February 2016.
