

IPC Practitioner case study template

Name (not required)

Current role

The boxes below will expand to fit what you type

Begin at the Beginning

A description of how you felt about your role and the support you could offer to people you care for. If appropriate, a description of the person's situation and what life was like before they had the guided conversation/IPC intervention.

- Significant issues
- Challenges
- Frustrations
- Daily life – eating, drinking, sleeping, movement
- Who's in their life – carers, friends, family?

Middle - How IPC has changed things for you and the people you support

Your feelings about the IPC intervention and the benefits it brings for the people you support. If appropriate a flavour of what IPC has done for a person you've previously supported.

- What support we've given
- What support/organisations we've linked the person to
- How we shared information to coordinate support across the multi-disciplinary team
- What would have happened to the person if we hadn't intervened e.g. would they have stayed in hospital longer

Conclusion

Your feelings about the future of IPC , what it could do to support you in your role and if appropriate, a description of what has changed for a person you've supported and their family/carers

- Link back to information provided at the beginning
- Did they achieve their goals/aspirations?
- How long did it take to build confidence up?
- Have they started volunteering themselves?
