

National Headliners

Latest Minimum Data Set for Specialist Palliative Care Services now available:

This resource aims to provide an accurate picture of hospice and specialist palliative care service activity and is the only annual data collection to cover patient activity in the voluntary sector and NHS in England, Wales and Northern Ireland.

Access the reports [here](#)

New resources - Dying with dementia:

The Dementia Intelligence and National End of Life Care Intelligence Network (NEoLCIN) have together created a suite of products (of analysed data) relating to people who have died with dementia in 2012-14. Download [here](#)

The following questions were addressed:

- Are there changes in dementia deaths over time?
- Who are the people who die with dementia?
- Where do people with dementia die?
- What do people with dementia die of?

Kings Fund Conference explores approaches to "Innovation in end of life care"

this event provides an overview of some of the national programmes of work and shared lessons from case studies in palliative care and local end-of-life care commissioning and delivery. View the presentations [here](#)

End of Life Bulletin October 2016

New paper on place of death for children with cancer in England:

This study published by NEoLCIN and the Kings Fund, looks at how the place of death in children and young people has changed over the period 1993-2014, following a number of national initiatives to improve end of life care since the late 1990s.
