

Ambitions for Palliative and End of Life Care

“The will, determination and innovation of organisations working collaboratively to find new ways of delivering better care will, and must, make a difference.”

Each person is seen as an individual

*I, and the people important to me,
have opportunities to have honest,
informed and timely conversations
and to know that I might die soon.
I am asked what matters most to me.
Those who care for me know that
and work with me to do
what's possible.*
