

Mental Health Bed Capacity

Greg Thomas

Implementation Manager,
NHS Pathways

Background

- National, centrally-provided system which allows the Capture, collation, and sharing of :
Clinical Capability and Capacity information.
- Used in various settings since c.2001
- Tailored Capacity Grids & Shared 'Views'
- Web-based access, free to use.

Example:

Mental Health Acute Bed Capacity

- In pilot in NE & Y&H regions
- Shows where a beds are potentially available for a patient requiring a given level of care or facility
- Doesn't change referral policy – simply enables quick and easy sharing of capacity information.
- Saves time phoning around for options.
- Setup centrally, handover to local support

Mental Health Acute Bed Capacity

Totals	47	30	6	13	12	13	17	8		

Wider benefits to Mental Health

- Can capture and share any capacity information...
- Potentially hold Psychiatric ICU capacity
- Section 136 availability
- Place patients in appropriate settings
- Analyse usage and inform future commissioning
