The Coalition for Collaborative Care highlights the 3 C's for person-centred care: a national partnership of 50 organisations, looked at what needed to happen in practice to achieve person-centred, collaborative care. These three Cs were found to be essential:

- **Better conversations** between the health professional and the people they support.
- Growing **strong communities** and people's personal and social networks.
- **Co-production** – involving people, families and communities as equal partners at every stage of decision-making, commissioning, service design and delivery.
